

100 SQUARES GAME

Make a donation of £2 to support

in their upcoming event!

Place your name and contact details in a square and you have the chance of winning half the money collected. If all squares sell, that's £100!

Let's make healthcare better, for everyone.

This is a great activity for using in the office or with your neighbours, and can be easier than asking for sponsorship.

HOW TO PLAY:

- Suggested donation of £2 per square
- Add name and contact number into purchased squares
- Use a free online number generator (search online for 'Calculator Soup Random Number Generator') to select a winner fairly
- Half the money collected goes to the winner, and the rest goes to your fundraising.
